DETAILED ACTION

The Information Disclosure Statement

The prior art cited in the information disclosure statement filed on June 26, 2003 has been considered.

Additional Prior Art

Qiao et al (US 2003/0143542 A1) disclose the use of a random of micro-spheres for the analysis of nucleic acids. O'Hagan (US 2003/0162178 A1) discloses a micro-array including a plurality of micro-spheres disposed on a substrate in a random order. The micro-spheres are individually identifiable by a color based address.

Allowable Subject Matter

Claims 1-13 are allowed over the prior art of record.

Examiner's Statement of Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

As to claim 1, the prior art of record, taken alone or in combination, fails to disclose or render obvious a method of determining one or more color characteristics of a colored microsphere comprising the steps of capturing the microarray of microspheres with an electronic color image sensor assembly having a matrix of pixels to produce an electronic microarray image and detecting the location of a microsphere within said electronic microarray image, in combination with the rest of the limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
